Carbon Credit Solutions

Avail our expert advisory solutions to get maximum returns

- Identify and quantify carbon credits
- Certification and registration assistance
- REC/Carbon credit trading services
- Strategic carbon credit management
- REC/Carbon credit project development

Energy Solutions

Renewable Energy

- ❖ Technical Due Diligence
- ❖ Asset Valuation Services
- ❖ Long Term Weather Resource (Physical Risk) & Hydrology Study
- ❖ Quality & EHS Audit
- ❖ Construction & Asset Management
- ❖ Technology Selection including Green Hydrogen & Storage

Optimizes Project Yield By 2 To 25%

Value Added Services

- ❖ Green Power Procurement Services
- ❖ Energy Efficiency & Resource Audit
- ❖ Lenders & Owners Engineer Services
- ❖ Climate Change Impact Assessment
- ❖ Pre-bid & Engineering Support
- ❖ Network & Grid Studies
- ❖ Training & Capability Building Services
- ❖ Blade, Gearbox & High Value Critical Items Inspection & Repair Services

Affects Performance & Life of Assets

Sustainability Solutions

- **Life Cycle Assessment (LCA) consulting and auditing**
- **Environmental Product Declaration (EPD)**
- **ESG consulting and gap analysis**
- **Sustainability strategy consulting**
- **Environmental and social risk assessment**
- **Sustainability auditing/assurance services**
- **Stakeholder engagement and communications**
